

CAPSULE 360

Camera Motion Box Product Design for MIOPS

Capsule360 is a smart motion box that combines multiple operating modes in a single unit. It has 3-Axis Motion capability with SLIDE, PAN and TILT moves. Capsule360 also offers Smart Object Tracking, Enhanced Time-Lapse Modes, 360° Product Photography, Star Tracking for Astrophotography, Panorama and much more.

Capsule360 is compatible with all kind of video devices such as smartphones, action cameras, and SLR or Mirrorless Cameras serving advanced video and time lapse motion modes.

3-Axis Motion for Smartphone, DSLR and Mirror-lens. Capsule360 has a compact and unique design that allows you to create Pan, Tilt and Slide moves easily. On top of that, all 2 axis movements such as Pan-Tilt, Pan-Slide, Tilt-Slide and even 3-axis motion by combining all together is also possible. You can coordinate up to three Capsule360 units right from your smartphone to create multiple axis movements.

Smart Tracking, Face Recognition and Object Tracking. Capsule360 benefits from the capabilities of your smartphone to the fullest. It can track an object with a single touch on your phone. Just start the app and mark the object you want to track on the screen. Capsule360 will take care of the rest. Vloggers will just love this feature.

Wireless and Easy to use 360 degrees Product Photography. Imagine you need to take the 360° photos of an item. It is just a hassle to rotate the item precisely to take all those pictures. You need to keep the same angle between each picture to get a smooth transition effect also you should not move the object at all. Capsule360 turns the whole process into a few touches on your smartphone. Just tell Capsule360 how many pictures you want to take. Capsule360 will rotate the turntable accordingly and it will also trigger the camera to capture smooth and quick 360° photos.
